Purpose for Gridded MOS (Need):

For NWS forecasters to produce accurate forecasts on a high-resolution grid in an optimal manner, guidance must be available on a grid at a resolution comparable to that used in the WFO forecast process

Team Objective:

The OSI Gate 1 hereby established the Gridded Model Output Statistics (MOS) Integrated Work Team. This IWT is charged to prepare the necessary Stage 2 Validation documents:

- Statement of Need Document
- Concept of Operations Document
- Operational Requirement Document
- Program Plan
